

Publication 34-9 de la CEI
(Deuxième édition)

Machines électriques tournantes

Neuvième partie: Limites de bruit

IEC Publication 34-9
(Second edition)

Rotating electrical machines

Part 9: Noise limits

CORRIGENDUM

Page 18

Remplacer le tableau 1 par le nouveau tableau 1, ci-joint.

Page 19

Replace the table 1 by the new table 1 attached.

Table 1 - Maximum permissible A-weighted sound power level L_W^*
 Method of cooling, IC code, see IEC 34-6 - Degree of protection IP code, see CEI 34-5

Rated speed n_N rev/min	$n_N \leq 960$			$960 < n_N \leq 1\ 320$			$1\ 320 < n_N \leq 1\ 900$			$1\ 900 < n_N \leq 2\ 360$			$2\ 360 < n_N \leq 3\ 150$			$3\ 150 < n_N \leq 3\ 750$
