Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 3.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this Amendment may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

Amendment 1 to International Standard ISO/IEC 13868:1995 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 6, *Telecommunications and information exchange between systems*.

Introduction

This Amendment defines the changes required to ISO/IEC 13868 Name Identification Supplementary Service for support of additional character sets used in various European regions. These include: Cyrillic characters, Turkish characters, Scandinavian characters, Greek characters, and Latin characters used by some eastern European countries.

The contents are expressed as amendments to be made to the base standard. Only those clauses for which amendments are specified are to be changed.

Information technology — Telecommunications and information exchange between systems — Private Integrated Services Network — Inter-exchange signalling protocol — Name identification supplementary services

AMENDMENT 1: Additional character sets for European languages

Clause 3

Insert the following new references for the new character sets below the ISO 8859-1 reference:

"ISO 8859-2: 1999, *Information technology - 8-bit single-byte coded graphic character sets - Part 2: Latin alphabet No. 2.*

ISO 8859-3: 1999, *Information technology - 8-bit single-byte coded graphic character sets - Part 3: Latin alphabet No. 3.*

ISO 8859-4: 1998, *Information technology - 8-bit single-byte coded graphic character sets - Part 4: Latin alphabet No.4.*

ISO 8859-5: 1999, *Information technology - 8-bit single-byte coded graphic character sets - Part 5: Latin/Cyrillic alphabet.*

ISO 8859-7: 1987, *Information processing - 8-bit single-byte coded graphic character sets - Part 7: Latin/Greek alphabet.*"

Remove the last reference (CCITT Rec T.61).

Subclause 6.1 "Operations", Table 1

delete **CharacterSet,** and line 1-9, add the following for new character sets.

```
CharacterSet  ::= INTEGER
                  {     unknown (0),
                        iso8859-1 (1),
                        -- The value 2 was assigned for CCITT Rec. T.61
                         -- which has been withdrawn by ITU-T.
                        iso8859-2 (3),
                        iso8859-3 (4),
                        iso8859-4 (5),
                        iso8859-5 (6)
                        iso8859-7 (7) } (0..255)
```
