

Information technology — Office equipment — Method for measuring digital copying productivity

TECHNICAL CORRIGENDUM 1

Technologies de l'information — Équipements de bureau — Méthode de mesure de la productivité d'un photocopieur numérique

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO/IEC 24735:2009 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 28, *Office equipment*.

Page 7, 5.2

Under **1 Set + 4 Minutes Test Procedure to measure EFTP_{4min}**, move the sentences in parentheses from step 6) to step 7) as follows:

“6) Run the 1 Set + 4 Minutes Test [steps 2 – 5] twice. Calculate EFTP_{4min} for each Test Run according to section 6.

7) Determine if the results are consistent within $\pm 5\%$ according to section 5.3.3, and perform a third Test run if required. (The data from the test is the average of the individual runs. Three iterations are the max. and those results from all iterations are averaged to get the required data.)”

Page 9, 5.3.2

Under **1 Set + 30 Seconds Test**, replace “FOST_{initial}” with “FSOT_{initial}” in the first line after the equation.
