Descriptors : textile machinery, wire, cards (machines), specifications, geometric characteristics, dimensions.

Price based on 2 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4105 was developed by Technical Committee ISO/TC 72, *Textile machinery and accessories*, and was circulated to the member bodies in June 1977.

It has been approved by the member bodies of the following countries :

Belgium	Japan	Switzerland
Czechoslovakia	Mexico	Turkey
Egypt, Arab Rep. of	Netherlands	United Kingdom
France	Poland	U.S.S.R.
Germany, F.R.	Romania	Yugoslavia
India	South Africa, Rep. of	
Italy	Spain	

No member body expressed disapproval of the document.

Textile machinery and accessories — Wires for flexible card clothings

1 SCOPE AND FIELD OF APPLICATION

This International Standard specifies the dimensions, the shapes and sections of wires for flexible card clothings.
