International Standard ISO 6240

Performance standards in building — Contents and presentation

Normes de performance dans le bâtiment — Contenu et présentation

First edition — 1980-07-01

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6240 was developed by Technical Committee ISO/TC 59, *Building construction*, and was circulated to the member bodies in November 1978.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	Norway
Belgium	Hungary	Poland
Canada	Ireland	Romania
Cyprus	Israel	South Africa, Rep. of
Czechoslovakia	Italy	Spain
Denmark	Japan	Sweden
Ethiopia	Korea, Rep. of	Turkey
Finland	Netherlands	United Kingdom
France	New Zealand	

No member body expressed disapproval of the document.
