Ref. No. ISO 7092-1983 (E)

Descriptors : washers, plain washers, dimensions, designation, specifications.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 7092 was developed by Technical Committee ISO/TC 2, *Fasteners*, and was circulated to the member bodies in December 1981.

It has been approved by the member bodies of the following countries:

Australia	India	Poland
Austria	Ireland	Romania
Belgium	Italy	South Africa, Rep. of
China	Japan	Spain
Czechoslovakia	Korea, Dem. P. Rep. of	Sweden
Denmark	Korea, Rep. of	Switzerland
Egypt, Arab Rep. of	Mexico	United Kingdom
Finland	Netherlands	USSR
Germany, F. R.	New Zealand	
Hungary	Norway	

The member bodies of the following countries expressed disapproval of the document on technical grounds:

Canada
France
USA

Plain washers — Small series — Product grade A

1 Scope and field of application

This International Standard lays down the specification for plain washers of product grade A, with small outside diameter preferable for screws with cylindrical heads, with thread sizes from M 1,6 to M 36 inclusive.

4 Specifications and reference International Standards

Material ¹⁾	Steel			Austenitic stainless steel		
Classes	140 HV	200 HV	300 HV ²⁾	A 140	A 200	A 350
Mechanical properties	International Standards	3)			3)	
	Hardness HV	140 min.	200 – 300	300 – 400	140 min.	200 – 300 350 – 400
Tolerances	Product grade	A				
	International Standard	ISO 4759/3				
Surface finish	Plain, deburred Requirements for electroplating are given in ISO 1456, ISO 1457, ISO 1458, and ISO 2081. If different electroplating requirements are needed for other finishes, they should be negotiated between customer and supplier.					
Acceptability	The acceptance procedure is covered in ISO 3269.					

- 1) Non-ferrous and other materials as agreed.
- 2) Hardened and tempered.
- 3) Will be covered in a future International Standard.

5 Designation

Example for the designation of a plain washer, small series, of nominal size 8 mm and mechanical property class 140 HV:

Washer ISO 7092 - 8 - 140 HV

Example for the designation of a plain washer, small series, of nominal size 8 mm and mechanical property class A 140:

Washer ISO 7092 - 8 - A 140
