**UDC 669.71-422.2**

**Ref. No. ISO 7273-1981 (E)**

**Descriptors :** aluminium, aluminium alloys, metal bars, dimensions, dimensional tolerances.

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 7273 was developed by Technical Committee ISO/TC 79, *Light metals and their alloys*, and was circulated to the member bodies in August 1980.

It has been approved by the member bodies of the following countries :

Austria	Ireland	Spain
Canada	Italy	Sweden
China	Japan	Switzerland
Czechoslovakia	Netherlands	United Kingdom
Egypt, Arab Rep. of	Norway	USA
France	Poland	USSR
Hungary	Romania	Venezuela
India	South Africa, Rep. of	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Australia  
Germany, F. R.
