Part 2:
Protocol specification

AMENDMENT 1: Minor enhancement for additional error

Technologies de l'information — Bureautique — Classement et récupération de documents —

Partie 2: Spécification du protocole

AMENDEMENT 1: Amélioration mineure pour erreur additionnelle

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 1 to International Standard ISO/IEC 10166-2:1991 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee 18, *Document processing and related communication*.

Information technology - Text and office systems - Document Filing and Retrieval (DFR) -

Part 2:

Protocol specification -
AMENDMENT 1: Minor enhancement for additional error

Page 6
Clause 6

> *Add "***ExternalServerError***" to the 5th line from the bottom of the page, after the word "***Abandoned***." Also separate the words "***ExternalServerError***" and "***Abandoned***" with a comma.*

Page 8
Clause 6

> *Add the following line at the end of the specification of Remote Error:*

external-server-error   ExternalServerError   ::=   13
