## BRIEF HISTORY

The Recommendation ISO/R 481, *Warper's Beams — Basic Dimensions*, was drawn up by Technical Committee ISO/TC 72, *Textile Machinery and Accessories*, the Secretariat of which is held by the Association Suisse de Normalisation (SNV).

Work on this question by the Technical Committee began in 1959 and led, in 1962, to the adoption of a Draft ISO Recommendation.

In September 1963, this Draft ISO Recommendation (No. 603) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Brazil	Italy	Spain
Czechoslovakia	Japan	Switzerland
France	Netherlands	Turkey
Hungary	New Zealand	United Kingdom
India	Poland	Yugoslavia

Two Member Bodies opposed the approval of the Draft:

Germany, U.S.S.R.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in April 1966, to accept it as an ISO RECOMMENDATION.
