

AEROSPACE INFORMATION REPORT

Society of Automotive Engineers, Inc.
TWO PENNSYLVANIA PLAZA, NEW YORK, N. Y. 10001

AIR 1169

Issued 11-15-70
Revised

BIBLIOGRAPHY OF REFERENCES PERTAINING TO THE EFFECTS OF OXYGEN ON IGNITION AND COMBUSTION OF MATERIALS

- AIR PRODUCTS INC. : "Cryogenic Safety," Air Products Inc., Allentown, Pa., 1959. 145 p, 61 references.
- ATOMIC ENERGY COMMISSION: "Serious Accidents" Bulletin #205 "Oxygen-Fed Fire Inside Air-Supplied Suit," May 20, 1963. 3 p, no references.
- AMERICAN INSURANCE ASSOCIATION: Engineering and Safety Dept., Div. of Technical Services, 85 John St., New York City 10038: "Fire, Explosion & Health Hazards of Organic Peroxides". Research Report No. 11, 1966 Revision. 90 p, 34 references.
- BAUM, J. V., GOOBICK, B., and TRAINER, T. M. : "Evaluation of High Pressure Oxygen Systems." Battelle Memorial Institute, Office of Technical Services, Washington, D. C. AMRL-TDR-62-102, September 1962. 85 p, 33 references.
- BOND, GEORGE F. : "Safety Factors in Chamber Operation" (p 141-143 of "Fundamentals of Hyperbaric Medicine"). National Academy of Sciences, National Research Council Publication No. 1298, 1966.
- BALDWIN, WILLIAM J. and HOLIBER, JEROME C. : "Too Much Oxygen." National Safety News, September 1957. 2 p, no references.
- BALDWIN, WILLIAM J. and HOLIVER, J. A. : "Combustion Hazards from Oxygen." U. S. Navy "Safety Review", September 1957. 7 p, no references.
- BONURA, M. S., NELSON, W. G., et al. : "Engineering Criteria for Spacecraft Cabin Atmosphere Selection," NASA Contractor Report NASA CR-891. Prepared by Douglas Aircraft Co., Inc. Santa Monica, California, September 1967. Section 8, "Comparison of Atmospheres for Fire Prevention." 61 p, 10 references.
- BOTTERI, B. P. : "Fire Protection for Oxygen Enriched Atmosphere Applications." USAF, Wright-Patterson Air Force Base, Ohio. Defense Document No. AD 653-113, "Clearing House for Federal Scientific & Technical Information," May 1967. 22 p, 5 references.
- BROOKS AIR FORCE BASE, Aerospace Medical Division, Texas: "Proceedings of Fire Hazards & Extinguishment Conferences," Report No. AMD-TR-67-2, Defense Documentation Center No. AD 664584, May 23, 1967. 209 p.
- CHIANTA, M. D. and A. M. STOLL: "Effect of Oxygen-Enriched Atmospheres on Burning Rates of Fabrics - Phase II." Aviation Medical Acceleration Lab., U. S. Naval Air Development Center, Johnsville, Pa. NADC-ML-6408, June 1964. 13 p, 6 references.
- CHIANTA, M. D. and A. M. STOLL: "Effect of Oxygen-Enriched Atmospheres on Burning Rate of Fabrics." Aviation Medical Acceleration Lab., U. S. Naval Air Development Center, Johnsville, Pa. NADC-MA-6316. 12 p, no references.
- COMPRESSED GAS ASSOCIATION: "Air Separation Plant Safety Symposium." Compressed Gas Association, New York, New York, 1964. 162 p.

SAE Technical Board rules provide that: "All technical reports, including standards approved and practices recommended, are advisory only. Their use by anyone engaged in industry or trade is entirely voluntary. There is no agreement to adhere to any SAE standard or recommended practice, and no commitment to conform to or be guided by any technical report. In formulating and approving technical reports, the Board and its Committees will not investigate or consider patents which may apply to the subject matter. Prospective users of the report are responsible for protecting themselves against liability for infringement of patents."

- COWARD, H. F. and JONES, G. W. : "Limits of Flammability of Gases and Vapors." U. S. Dept. of Interior, Bureau of Mines, Government Printing Office, Washington, D. C. Bureau of Mines Bulletin 503, 1952. 155 p, 368 references.
- COMPRESSED GAS ASSOCIATION: Bibliography, "Flammability Characteristics in Oxygen-Enriched Hyperbaric Environments." Compressed Gas Association, New York, N. Y. Docket 1152, August 1965. 2 pg, 20 references.
