

AEROSPACE MATERIAL SPECIFICATION

SAE AMS-7225

REV
F

Submitted for recognition as an American National Standard

Issued 1939-12-05

Revised 1990-10-01

Superseding AMS-7225E

RIVETS, CARBON STEEL

UNS G10100

This specification has been designated as "SUPERSEDED" by the Aerospace Materials Division, SAE, as of May 1990. The requirements of this specification are embodied in the latest issue of AS7225, Rivets, Carbon Steel. The requirements of the latest issue of AS7225 shall be fulfilled whenever reference is made to AMS-7225.

By above action, jurisdiction of subject specification is transferred from AMS Committee "E" to SAE Committee E-25.

This specification is under the jurisdiction of the AMS Committee "E".

SAE Technical Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.
