AEROSPACE RECOMMENDED PRACTICE

Submitted for recognition as an American National Standard

SAE ARP4102/14

Issued 1992-01-30

FULL-FORMAT PRINTER

1. SCOPE:

This document recommends criteria for the installation and operation of a printer on the flight deck, to supply the flight crew with hard copies of information that originates from data sources such as FMS, ELS, ACMS, CMS, and Data Link.

These criteria are in addition to the specifications of the referenced ARINC Characteristic 744A.

2. REFERENCES:

2.1 Documentation:

This annex should be used in conjunction with ARP4102 core document. In addition, the following documents are applicable:

SAE ARP4101   Flight Deck Layout and Facilities
SAE ARP4102   Flight Deck Panels, Controls and Displays
SAE ARP4102/13   Data Link
SAE ARP4105   Nomenclature and Acronyms
SAE ARD50001   Electronic Library System

3. OPERATIONAL REQUIREMENTS:

3.1 A printer shall be accessible to both pilots, flight deck space, and lay-out permitting.

3.2 The printer should have the capability to print in color.

SAE Technical Standards Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.
