

Connector Accessories, Electrical, Backshell, Nonenvironmental,
Straight, Shielded, Termination, Category 7
(For MIL-DTL-38999 Series I and II Connectors)

THIS AMENDMENT FORMS A PART OF AS85049/33A, DATED 2004-10

1. Present Requirement: (after qualification, Sheet 6)

None

Change Requirement: (after qualification, Sheet 6)

Application Restriction: Not for space applications (see application note)

2. Present Requirement (Sheet 7, after supersession data)

None

Change Requirement (Sheet 7, after supersession data)

Applications:

AS85049 does not restrict the use of pure tin plating finishes which may cause tin whisker growth. For more information on tin whiskers see AIR5444.

Rationale for Change: restrict the use of the accessory in space applications

AMENDMENT 1 AUGUST 2007

1. Present Requirement: Sheet 1 thru Sheet 7, In Title;

Connector Accessories, Electrical, Backshell, Nonenvironmental, Straight, Shielded Termination, Category 7 (For MIL-DTL-38999 Series I and II Connectors).

Change Requirement: Sheet 1 thru Sheet 7, in Title;

Connector Accessories, Electrical, Backshell, Nonenvironmental, Straight, Shield Termination, Category 3C (For MIL-DTL-38999 Series I and II Connectors).

Rationale for Change: Category 7 requirements are not adequate for proper qualification. Previous revision was Category 3C.

SAE Technical Standards Board Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is entirely voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be reaffirmed, revised, or cancelled. SAE invites your written comments and suggestions.
