National Adoption of Canada

A National Adoption of Canada is an International Standard, regional standard, or other international/regional deliverable approved by SCC in accordance with SCC's: *Requirements and Guidance-Accreditation for Standards Development Organizations*, and *Requirements and Guidance-Approval of National Adoptions of Canada Designation*. More information on National Adoption requirements can be found at www.scc.ca.

An SCC-approved adoption reflects the consensus of a number of experts whose collective interests provide, to the greatest practicable extent, a balance of representation of affected stakeholders. National Adoptions of Canada are intended to make a significant and timely contribution to the Canadian interest.

SCC is a Crown corporation within the portfolio of Industry Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts. Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

Users should always obtain the latest edition of a National Adoption of Canada from the standards development organization responsible for its publication, as these documents are subject to periodic review.

UL Standard for Safety for Consumer Product Safety – Guidelines for Suppliers, UL 10377

First Edition, Dated April 28, 2017

Summary of Topics

This is the first edition of CAN/UL 10377, the Standard for Consumer Product Safety – Guidelines for Suppliers

CAN/UL 10377 is an adoption with Canadian national deviations of ISO Standard for Consumer Product Safety – Guidelines for Suppliers, first edition of ISO 10377: 2013-04-15.

The new requirements are substantially in accordance with Proposal(s) on this subject dated November 11, 2016.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard “as is” without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL’s liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL’s Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney’s fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser’s computer system.

CONTENTS

Preface (UL)	6
NATIONAL DIFFERENCES	9
Foreword	10
Introduction	11
1 Scope	13
2 Terms and definitions	13
3 Basic principles for addressing consumer product safety	16
3.1 General	16
3.2 Promoting a product safety culture within the organization	17
3.3 Promoting a product safety culture outside the organization	17
3.4 Committing to providing safe products	17
3.5 Continual improvement	17
3.6 Precautionary approach	18
3.7 Sharing of information	18
4 General requirements	18
4.1 General	18
4.2 Commitment to providing safe consumer products	19
4.3 Continual improvement	22
4.4 Applicable laws, regulation and standards	25
4.5 Consumer product identification and traceability	25
4.6 Understanding the role of consumers	27
5 Safety in design	28
5.1 General	28
5.2 Design specification	29
5.3 Safety considerations in design	30
5.4 Documenting the design specification process	38
6 Safety in production	39
6.1 Basic principles during production	39
6.2 Production planning	41
6.3 Full production runs	43
6.4 Post production	44
6.5 Production support	44
7 Safety in the marketplace	45
7.1 General	45
7.2 Pre-purchase assessment	45
7.3 Proactive data collection and analysis	47
7.4 Ongoing assessment of consumer product conformance	47
7.5 Warranty and servicing	48
7.6 Product incident investigation	48

Annex A (informative) Useful International Standards and Guides**Annex B (informative) Information and guidance for small businesses**

B.1 General	50
B.2 Questions for suppliers to consider when designing, producing or supplying consumer products	50
B.2.1 General	50
B.2.2 General questions	50
B.2.3 Questions related to design	51
B.2.4 Questions related to production	52
B.2.5 Questions related to the marketplace	52
B.3 Consumer product incident investigation	53
B.4 Planning and carrying out a focus group	53

Annex C (informative) Hazard and risk evaluation**Annex D (informative) Product safety management plans**

D.1 General	59
D.2 Product safety management plan based on a quality assurance manual	59
D.3 Checklist for development of a product safety management plan	61

Preface (UL)

This is the First Edition of the CAN/UL 10377, Standard for Consumer Product Safety – Guidelines for Suppliers, which is a National Adoption of the first edition of ISO 10377: 2013-04-15.

This CAN/UL10377 Standard for Safety is under continuous maintenance, whereby each revision is SCC approved upon publication. If no revisions occur, the initiation of the review of this Standard will commence within 5 years of the date of publication.

UL is accredited by the Standards Council of Canada (SCC) as a Standards Development Organization (SDO).

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

To purchase UL Standards, visit Comm 2000 at http://www.comm-2000.com/help/how_to_order.aspx or call toll-free 1-888-853-3503.

This Edition of the Standard has been formally approved by the UL 10377 Voting Body.

This list represents the voting body membership when the final text in this standard was balloted. Since that time, changes in the membership may have occurred.

VOTING BODY MEMBERSHIP

Name	Representing	Interest Category*	Region
Anderson, Dean	Farm Safety Association	General	CANADA
Breton, Norm	Electrical Safety Authority	AHJ	CANADA
Brownstein, Morley	Self	General	CANADA
Bryans, Bill	Electro-Federation Canada	Producer	CANADA
Cameron, Peter	Peter Cameron & Assoc. Inc.	General	CANADA
Cheung, Paul*	Intertek	Testing and Standards	CANADA
Chowhan, Paul	Health Canada	Government	CANADA
Coleman, Jeff	BC Safety Authority	AHJ	BRITISH COLUMBIA
Dabydeen, Andy	Canadian Tire Corporation, Limited	Supply Chain	CANADA
Dalgleish, Laverne	Building Professionals	General	CANADA
Dulmage, G. Rae	Consumer	Consumer	CANADA
Ersoy, Turgut	Dr. Turgut Ersoy, P. Eng.	General	CANADA
Fischel, Matt	Stuctube	Supply Chain	CANADA
Fougère, Cheryl	CCSPA (Canadian Consumer Specialty Products Association)	General	CANADA
Gervais, Dave	Science Teachers Association of Ontario (STAO)	General	CANADA
Gouglas, Christopher	Best Buy Canada Ltd.	Supply Chain	CANADA

VOTING BODY MEMBERSHIP Continued on Next Page

VOTING BODY MEMBERSHIP (Continued)

Name	Representing	Interest Category*	Region
Guitar, Yolanda	Canadian Infant Safe Sleep Project	Consumer	CANADA
Khurana, Vaneet	Walmart Canada Corp.	Supply Chain	CANADA
MacLean, Erin	Scotts Canada Limited	Producer	CANADA
Mangalam, Srikanth	Public Risk Management (PRISM) Institute	Consumer	CANADA
McMahon, Karen	Government of Nova Scotia	AHJ	NOVA SCOTIA
Mok, Lai Ki	Loblaws	Supply Chain	CANADA
Neilsen, Elizabeth	Consumers Council of Canada	Consumer	CANADA
Paulsen, Shawn*	CSA Group	Testing and Standards	CANADA
Pollock, Bob*	UL LLC	Testing and Standards	USA
Pomerleau, Denis	Société de transport de Montréal	Government	QUEBEC
Quaestor, Tanya	Shoppers Drug Mart	Supply Chain	CANADA
Redekop, Quinn*	SCC	Testing and Standards	CANADA
Robinson, Brian	Honda Canada Inc.	Producer	CANADA
Roddy, Mary Ellen	Henkel Corporation	Producer	CANADA
Sanchuk, Kristy	S.C. Johnson and Son Limited	Producer	CANADA
Sinha, Madhav, PhD, P.Eng.	Canadian Society for Quality	General	CANADA
Smirlies, Kelly	SI Manufacturing	Producer	CANADA
Stewart, Geoff	Club Car, LLC	Producer	CANADA
Watson, Scott	Parachute Canada	Consumer	CANADA
Williams, Matt	AHAM	General	USA
Iafano, Maria	Underwriters Laboratories Inc.	STP Co-Chair – Non-voting	CANADA
Jacobs, AnneMarie	Underwriters Laboratories Inc.	STP Project Manager – Non-voting	USA
Myers, Randi	Underwriters Laboratories Inc.	STP Co-Chair – Non-voting	USA
Sepper, Megan	Underwriters Laboratories Inc.	STP Project Manager – Non-voting	USA
Walker, Amy	Underwriters Laboratories Inc.	STP Project Manager – Non-voting	USA

*Testing and Standards interest category is non-voting for SCC.

NATIONAL DIFFERENCES

There are five types of National Differences as noted below. The difference type is noted on the first line of the National Difference in the standard. The standard may not include all types of these National Differences.

DR – These are National Differences based on the **national regulatory requirements**.

D1 – These are National Differences which are based on **basic safety principles and requirements**, elimination of which would compromise safety for consumers and users of products.

D2 – These are national differences from ISO requirements based on existing **safety practices**. These requirements reflect national safety practices, where empirical substantiation (for the ISO or national requirement) is not available or the text has not been included in the ISO standard.

DC – These are National Differences based on the **component standards** and will not be deleted until a particular component standard is harmonized with the ISO component standard.

DE – These are National Differences based on **editorial comments or corrections**.

Each national difference contains a description of what the national difference entails. Typically one of the following words is used to explain how the text of the national difference is to be applied to the base ISO text:

Addition / Add - An addition entails adding a complete new numbered clause, subclause, table, figure, or annex. Addition is not meant to include adding select words to the base ISO text.

Modification / Modify - A modification is an altering of the existing base ISO text such as the addition, replacement or deletion of certain words or the replacement of an entire clause, subclause, table, figure, or annex of the base ISO text

Deletion / Delete - A deletion entails complete deletion of an entire numbered clause, subclause, table, figure, or annex without any replacement text.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2. www.iso.org/directives

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received. www.iso.org/patents

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

The committee responsible for this document is Project Committee ISO/PC 243, *Consumer product safety*.
