UL Standard for Safety for Thermistor-Type Devices, UL 1434

First Edition, Dated April 3, 1998

Summary of Topics

The revisions of UL 1434 dated May 18, 2021 include the following changes in requirements:

- Matching [Table 11.3](#) and [Table 22.1](#) to IEC 60730-1 Table J.7.**
- For a sensing thermistor, corrections to use the same temperature terminology in the document; [12.2](#), [14.4](#), [15.1](#), [17.2](#)**

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The revised requirements are substantially in accordance with Proposal (s) on this subject dated November 11, 2020 and March 9, 2021.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.
